Humatica advises Summa Equity on their recent investment in Infobric AB

Humatica AG was retained to advise Summa Equity on its majority investment in Infobric AB (“Infobric”), a provider of software and hardware for attendance systems, access control, asset monitoring, and energy efficiency on construction sites. Infobric was founded in 2004 in Jönköping, Sweden, and is a market leading supplier of software solutions and IoT products for building sites in the Nordics.

Humatica provided organisational due diligence services for this transaction.

About Humatica

Humatica is a specialist consultancy helping private equity investors and portfolio company management teams to increase value through organisational excellence. The firm applies hard-facts analytics to deliver quantified transparency on the behaviors which drive value growth, and assists leaders with implementation to realize bottom line benefits.
